

Capture

The fastest way to research and move contact data into your CRM

Capture is a Google Chrome plugin that makes prospect research a breeze. With a few clicks, you can capture company and contact information from web pages, social profiles and search engine result pages, and move it directly into your CRM.

- Increase sales productivity by 98%
- No manual data entry
- No duplicates in your CRM
- No outdated information

Collect

Gather contacts from any source - online or offline. Our Google Chrome extension turns them all into new, centrally organized contacts.

Study

Research your most promising contacts. Capture finds all social profiles, phone numbers, emails, addresses, and firmographics in no time, reducing sales prospecting time by 88%.

Win

Sync Capture to your CRM. With new contact data coming in, you can now reach prospects wherever they are: on the social web, through email, by phone, or in person.

Experience the benefits of Capture:

- **Save Money:** Stop wasting your time and budget on stale lead lists. You're getting contact information from the best, most up-to-date information source in the universe: the Internet.
- **Easy Installation:** Capture installs quickly and easily with just a few clicks.
- **Email Verification:** With built-in email verification technology, you can be confident that your finely crafted messages get delivered.
